Coro Mining Closes First Tranche of Private Placement

September 25, 2017, Coro Mining Corp. (“Coro” or the “Company”) (TSX Symbol: COP) is pleased to announce the closing of the first tranche of the non-brokered private placement (the “**Private Placement**”) announced September 11, 2017 and has now issued a total of 35,899,990 common shares, at a price of CA\$0.13 per common share, raising gross proceeds of approximately CA\$4,666,999. All common shares issued pursuant to the Private Placement are subject to a statutory four month hold period.

The Company now has 629,167,529 common shares issued and outstanding. It is anticipated that the proceeds of the Private Placement will be used to complete a Definitive Feasibility Study (“**DFS**”) including geotechnical, metallurgical and infill drilling, to earn Coro’s 75% interest in the project and to fast-track Marimaca to production. The remainder of the funds may be used for working capital purposes.

It is anticipated that the final tranche of the Private Placement will close in October.

About Coro Mining Corp.:

Coro is a copper producer in Chile with a strategy to grow through the discovery, development and operation projects at any stage of development, which are well located with respect to infrastructure and water, have low permitting risk, and have the potential to achieve a short and cost effective timeline to production. The Company’s preference is for open pit heap leach copper projects, where minimizing capital investment and creating profitability are priorities and where the projected capital cost is financeable relative to the Company’s market capitalization. The Company’s assets include the Marimaca development project; its 65% interest in the SCM Berta company, which owns the Berta mine and Nora plant and the Llancahue prospect.
